

Carpet Cleaning Company Announces Full Service For Sacramento Area

July 01, 2016

July 01, 2016 - PRESSADVANTAGE -

Spiker Carpet and Tile Care, based in Acampo, California, has announced that they are now fully servicing customers in Sacramento and the surrounding areas. The company is currently the most reviewed and qualified carpet cleaning company in the two surrounding counties.

Brian Spiker, owner of the company says, "We are glad to be providing these services to our customers in and around Sacramento, and we look forward to establishing great relationships."

Spiker Carpet and Tile Care has more than 300 five star reviews online, although the company has been around for only two years. Spiker states that the reason is in the quality of services that they provide.

"We always go above and beyond to ensure that our customers are completely satisfied," he states. "We understand fully that word of mouth is the best form of referral and that satisfied customers return again and again."

Spiker states that positive reviews have allowed the company to remain in business. These reviews have

also prompted them to expand their service area to now offer the carpet cleaning Sacramento residents are looking for. The company offers carpet cleaning as well as upholstery and tile and grout cleaning services. Spiker says that their array of services has also helped to earn them great reviews throughout the years.

The company states that they strive to provide only quality cleaning services, and that they have already provided satisfactory services to countless residential and commercial customers throughout Stockton. Now, they aim to do the same with customers in Sacramento. They urge those who require cleaning services to contact them for an estimate. They also pointed out that anyone interested in their positive reviews can read them online.

Spiker states that the expansion to include Sacramento is something that the company has been planning for quite some time, although no word was given about any future expansions into additional California cities or regions.

Those interested in learning more about Spiker Carpet and Tile Care, including a complete look at the range of cleaning services they offer, can visit the company on their official website. Spiker suggests potential customers also follow them on their social media channels to stay updated about future company news.
