Zatkoff Acquires Performance Seals, Inc. of Houston, Texas

November 09, 2026

FARMINGTON HILLS, MI - November 09, 2026 -
Broader Inventory ? Advanced Engineering Support ? Relentless Problem-Solving ? Reliable On-Time Delivery

Zatkoff is proud to announce the acquisition of Performance Seals, Inc. of Houston, Texas. By bringing together two organizations built around technical expertise, product availability, and responsive customer service, an even stronger resource for customers is being created.

Performance Seals? customers gain access to Zatkoff?s broader inventory, engineering and technical resources, quality systems, and supply chain solutions, all while continuing to work with the people of Performance Seals that they already know and trust.

For more than four decades, Performance Seals has helped Houston-area manufacturers and operators keep their businesses running. Their team is known for expert application guidance and for shipping critical orders on time. Their approach to service starts with four words Zatkoff shares completely ? ?Let?s figure it out.?

Zatkoff has embodied that idea since their founding in 1959. When Roger Zatkoff started the company, he specifically offered parts his customers couldn?t find anywhere else, in order to solve problems no one else would take on. More than six decades later, that customer service philosophy ? listen first, work in partnership, and always deliver what was promised ? still guides everything they do.

About Performance Seals

Background: Houston-based sealing specialist and authorized Parker distributor with a reputation for expert guidance and reliable delivery.

Products: O-rings, rod and piston seals, spring-loaded seals, wipers, and gaskets. Rubber, PTFE, and PEEK backup rings in a full range of compounds.

Service: Known for sealing expertise and value-added services to support applications from design through installation.

Reliability: Inventory-backed availability with same- and next-day shipping.

About Zatkoff

Background: Family-owned and operated since 1959, recognized as a leading U.S. distributor of sealing technologies and solutions.

Service: Complete solution provider combining superior product availability with engineering and technical expertise.

Quality: ISO 9001:2015 certified quality system at every location, plus AS9120:B certified at their Cincinnati branch. In-house quality testing and application engineering support.

Technology: Advanced supply chain solutions, including ZAP>IT®, kitting, barcoding, and EDI.

The Zatkoff Way

As their teams come together, their vision is straightforward: lead with premium solutions, elevate their partners, and empower their customers' success.

They are grateful to the customers, employees, suppliers, and partners who have helped build both organizations. Together, they look forward to continuing to bring a human touch and relentless problem-solving to help their customers get critical components that make everyday life possible.
