

Arrowhead Clinic Savannah Highlights Patient Experiences in Auto Accident Injury Care

November 16, 2026

Savannah, Georgia - November 16, 2026 -
Arrowhead Clinic Chiropractor Savannah has drawn renewed attention to the role of early chiropractic intervention following motor vehicle collisions, pointing to recent patient feedback that illustrates the recovery process many accident victims undergo. The clinic, which has served Georgia residents for more than 48 years, continues to focus on the evaluation and management of post-collision conditions, including whiplash, soft tissue damage, and spinal misalignment.

Among the experiences shared by those treated at the clinic, one patient described arriving with significant back pain following a car accident and working with Dr. Maria Bourjolly to develop a structured treatment plan. The patient credited the clinical team, including therapists Mya, Karms, and Ale, with supporting steady progress and noted a marked improvement in overall condition. Accounts of this kind reflect a broader pattern the clinic observes among individuals seeking Savannah car accident injury treatment after a collision.

The clinic emphasizes that symptoms following an accident do not always appear immediately.

Delayed-onset pain, reduced range of motion, and nerve-related discomfort can surface days or weeks after an incident, which is why early evaluation remains a central part of the clinic's approach. Through thorough assessment, the practice works to identify both apparent and subtle injury patterns before they develop into chronic conditions.

"Many people underestimate the physical impact of a collision in the hours and days that follow," said Dr. Maria Bourjolly, a clinical representative at Arrowhead Clinic. "A comprehensive evaluation allows the care team to map out an individualized plan rather than treating symptoms in isolation. That distinction often shapes how fully a person recovers."

Arrowhead Clinic combines traditional chiropractic techniques with therapeutic methods such as computer-guided spinal decompression, active release therapy, and functional movement screening. These approaches are intended to restore spinal alignment, reduce pressure on affected nerves, and support the body's natural healing processes. Each treatment plan is developed around a patient's specific injury pattern, daily activities, and recovery goals.

"Auto accident recovery is rarely a one-size-fits-all process," Dr. Bourjolly added. "The experiences patients share reinforce the value of a plan built around the individual, with a clinical team that stays involved throughout the course of treatment."

The clinic also assists patients in navigating insurance claims and, where appropriate, coordinates with personal injury attorneys so that individuals can concentrate on recovery. This coordination is part of the practice's effort to reduce the administrative burden that often accompanies the aftermath of a collision.

Arrowhead Clinic Chiropractor Savannah operates as part of the larger Arrowhead Clinic network, which treats musculoskeletal injuries resulting from auto accidents, workplace incidents, and other traumatic events across Georgia. Under the direction of Dr. Maria Bourjolly, the Savannah location offers extended hours, wheelchair-accessible facilities, and same-day appointments for patients seeking care after an accident.

With decades of experience in treating collision-related injuries, the clinic continues to focus on patient-centered care designed to help individuals return to their normal activities. The practice remains committed to combining established chiropractic methods with current therapeutic techniques for those recovering from motor vehicle incidents in the Savannah area.

"description": "Dr. Rachel Banks graduated from Jackson State University receiving her Bachelor of Science degree in Biology/Pre-medicine in 1990. She then moved on to attend Life University when she was called to the healing aspects of Chiropractic care, she graduated in 1997 with a doctorate in chiropractic. She?s also a proud member of the Georgia Chiropractic Association. Dr. Banks joined the Arrowhead family in 2009 becoming the floater doctor in the Atlanta/Savannah/ Brunswick offices. Her belief and dedication to the field of chiropractic have made her an intricate part of Arrowhead Clinics. In 2016, she was asked to make a permanent move to Savannah taking over the Mall Clinic. Dr. Banks revamped the staff, implemented her own style of leadership and management and in 2018 her clinic won ?The Most Goals Met? in 2017. Dr. Banks was born and raised in Atlanta and a member of Alpha Kappa Alpha Sorority but enjoys living here in Savannah with her loveable fur baby - Lola. Call for Your Free Consultation Today! And, I can?t forget DR. F, he is amazing. You will go there feeling zero percent down, but, once you start getting treatments he makes sure that you are 100 percent better before your graduation period. I would recommend Arrowhead Clinic to any of my friends and family ????",

      "name": "What Should You Expect During Your First Visit At Our Savannah Chiropractic Clinic? Answer",
      "text": "Chiropractic treatment at Arrowhead Clinic's Savannah office is precisely organized for victims of car accidents or those dealing with chronic pain symptoms, our approaches to care are gentle, safe and always all natural.  The main goal is to help your body naturally by relieving residual soreness and stiffness while at the same time restoring flexibility and mobility.  The results our patients see are a drastic reduction in acute pain symptoms and inflammation, increased lower back and neck ranges of motion, better sleep throughout the night and elevated mental clarity.  Please read some of our reviews by clicking on the image below to determine if we are the right fit for your and your family.  We achieve rapid results for our patients through chiropractic adjustments and active release therapy that functions to restore proper motion in the joints, decompression therapy that uses intermittent spinal traction to take stress off vertebral joints while simultaneously hydrating your discs, electrical stimulation to reduce muscular and nervous system pain in localized areas, and much more.",
