

# Glen Ellyn Contractor Shares Warning Signs Your Exterior Door Needs Replacing

*November 13, 2026*

GLEN ELLYN, IL - November 13, 2026 -
As fall settles into DuPage County, Ultimate Home Solutions Windows Doors & Siding Company is sharing simple warning signs that tell homeowners when an old exterior door is costing them comfort, security, and money. The family owned home improvement company has handled door replacement in Glen Ellyn and the western suburbs since 1989.

Many homeowners only think about their front door when it stops closing. By then, small problems have often been adding up for years. The team at Ultimate Home Solutions says a few quick checks can reveal whether a repair will do or a full replacement makes more sense.

Drafts and cold spots. If you can feel air moving near a closed door, or see daylight around the edges, heat is escaping. That shows up on winter energy bills.

Sticking, swelling, or warping. Older wood doors can absorb moisture and swell, making them hard to open

and close. The company's fiberglass entry doors are built to resist this kind of everyday wear.

Loose or worn locks. A door that rattles in its frame or has tired hardware is easier to force open. A new door system with a solid frame and quality hardware adds real security.

Fogged or cracked glass. On patio doors, fog between the panes usually means a failed seal. Modern energy efficient glass helps limit heat gain in summer and heat loss in winter.

A tired first impression. Faded paint, dents, and outdated styles drag down curb appeal. New doors can be customized with colors, woodgrain textures, sidelites, and hardware to match the home.

"Most people are surprised how much a door affects the whole house, from the heating bill to how safe they feel at night," said a spokesperson for d. "When we do a door replacement in Glen Ellyn, we look at the full picture, the door, the frame, the glass, and the hardware, so the homeowner gets a fix that lasts."

The company installs entry doors, hinged French patio doors, sliding patio doors, and storm doors from brands including Therma-Tru, Restorations, and Sunrise. Its installers are certified on every product it sells, and all labor is covered by a lifetime warranty. As a home improvement company with an A+ rating from the Better Business Bureau, Ultimate Home Solutions also offers a price match guarantee and financing for qualified projects.

Homeowners who notice any of these signs can schedule a free in home estimate by calling (630) 469 5400 or visiting https://ultimatehomesolutions.net/exterior-doors/. The showroom is located at 466 Roosevelt Rd in Glen Ellyn.

About Ultimate Home Solutions Windows Doors & Siding Company

Founded in 1989, Ultimate Home Solutions Windows Doors & Siding Company is a family owned home improvement company with locations in Glen Ellyn and Naperville, Illinois. The company provides replacement windows, exterior doors, siding, roofing, and gutters to homeowners in Glen Ellyn, Wheaton, Lombard, Downers Grove, Lisle, Warrenville, Aurora, Batavia, Oswego, and nearby communities. It is certified to install every product it offers, holds an A+ BBB rating, and backs its labor with a lifetime warranty. The company avoids high pressure sales and gives back locally through support for the Make A Wish Foundation and homes for wounded veterans.
