

Decorative Glass From Livingglass Nominated Best Interior Design Product of 2016

June 29, 2016

June 29, 2016 - PRESSADVANTAGE -

Custom glass manufacturer Livingglass announced this week that 4 of its decorative glass designs were nominated for Best Product of 2016 by Design Journal Mag and the ADEX Awards.

This year has been a big year for the release of innovative new products and projects by Los Angeles custom glass maker Livingglass. Their newest products combine tempered glass with various advanced techniques to embed organic materials inside the glass. The glass panels are made from two sheets of glass and a resilient polymer interlayer which can be combined with various colors, patterns, and materials to create any custom look.

Livingglass? Architectural decorative glass products nominated for the 2016 ADEX awards include:

Product Title: Honey Onyx

Product Description: Honey Onyx, part of the Livingglass LIGHT product line, is a laminated architectural glass

which captures the essence of Onyx between luminous sheets of glass. Because of the natural variety of Onyx, each Livingglass panel is unique. Panels can be made as cladding for single sided use such as elevator cabs, lobby walls and table tops or in double sided versions for partitions or other applications such as doors, railings or walls.

Product Title: Meadowleaf (Patina)

Product Description: Meadowleaf (Patina), part of the FRESH product line, uses Luna, patina like metal and color finishes to create a stunning glass panel. It is a non-laminated glass with a wide variety of stunning and affordable options.

Product Title: Champagne Elemental Glow

Product Description: Champagne Elemental Glow, part of the Elemental product line, features the essence of fleck of brilliant champagne colored elements; This luminous glass features a crackled texture with flecks of light to create dimension.

Product Title: Lavawood Gold (Luminous)

Product Description: Lavawood Gold (Luminous) is inspired by the colors and textures of wood. This product, a part of Livingglass LIGHT product line, features golden luminous wood textures laminated between architectural glass. This design captures the unique organic feel of wood with the added element of gold. Panels can be made as cladding for single sided use such as room dividers, elevator cabs, lobby walls and table tops or in double sided versions for partitions or other applications such as doors, railings or walls.

Sustainability Green Features: These products are available with recycled glass and 100% recycled resin. Earn LEED credits with our environmentally friendly Light.

Designjournalmag.com is an international trade resource for interior designers, architects and facility managers as well as the sponsor of the ADEX Awards. ADEX stands for Awards for Design Excellence and a prestigious awards program for product & project design in the A&D industry. An anonymous panel of professionals representing a cross section of the design industry conducts all voting for the awards.

Livingglass is offering these new glass designs to builders, designers, and architects who can fully customize glass panels according to their choosing for both commercial and residential applications including glass wall panels, doors, tables and furniture, safety railings, lighting, barbacks and backsplashes, room dividers and

office partitions, ceilings and countertops, and on non-slip flooring on stairs and bathrooms.
