

Phoenix NP Announces LegitScript Certification for Its Arizona Telehealth Platform

November 18, 2026

PHOENIX, AZ - November 18, 2026 -
Phoenix NP, an Arizona telehealth practice offering medically supervised weight loss for women, has announced that it has obtained LegitScript Healthcare Merchant Certification. The designation confirms that the practice has completed LegitScript?s review process for healthcare merchants and meets the program?s standards.

LegitScript is an independent organization that evaluates healthcare-related businesses against established standards. Its review covers areas such as licensing, website content, and operational practices, and certified businesses are expected to continue meeting those standards over time.

Jenny Vu, NP, Owner and Nurse Practitioner at Phoenix NP, commented on the announcement.

?Women choosing care online deserve a way to check a practice before they ever book,? Jenny Vu said. ?LegitScript reviewed our licensing, our website, and how we operate, and that kind of independent check

matters in telehealth.?

Phoenix NP provides telehealth weight loss care exclusively for women in Arizona. Care is delivered entirely online through scheduled telephone or video appointments, so patients can attend from home or work without traveling to a clinic. Patients can book appointments online and use the practice?s patient portal, which is also available as a mobile app, to send messages and manage their appointments.

Continuity of care is central to how the practice operates. Patients work with Jenny Vu, NP, at every appointment, from their first consultation through each follow-up visit. Because patients see the same provider each time, they do not need to repeat their health history to a new clinician at every visit.

Jenny Vu founded Phoenix NP in 2023. She is an Arizona-licensed Nurse Practitioner and a nationally certified Women?s Health Nurse Practitioner, and the practice?s care is focused specifically on women.

Because care is delivered virtually, Phoenix NP serves women in communities across Arizona, including Phoenix, Scottsdale, Tempe, Chandler, Gilbert, Mesa, Goodyear, Buckeye, Tucson, Sedona, and Bullhead City. Patients outside the Phoenix metropolitan area have access to the same appointments and the same provider as patients in the city.

LegitScript certification reflects a review of the practice?s business operations and does not evaluate individual medical outcomes. Clinical services at Phoenix NP remain subject to Arizona laws governing licensed healthcare providers, and prescriptions are issued only after an appropriate medical evaluation.

Women in Arizona who would like to learn more about Phoenix NP can schedule an appointment at phoenixnp.com.

About Phoenix NP

Phoenix NP is an Arizona telehealth practice offering medically supervised weight management for women. Patients see the same provider at every visit, the practice prescribes only FDA-approved medications, and pricing is transparent with no insurance required.
