

## **SoCal Marketing Consultants Introducing their Services with July Specials**

*June 30, 2016*

June 30, 2016 - PRESSADVANTAGE -

SoCal Marketing Consultants will be turning the Digital world on its head, with the launch of a series of 1/2 off promos on their new services, that aim to Improve local economies boosting local business profits and sales. "When the launch series begins sometime in July, our clients' competition won't know what hit them. We aim to dominate our client's neighborhood in their industry to become the only choice," said Diego Valencia of the Los Angeles, California based Agency.

They cater to the same services normal agencies offer and have come up with new services that will be an exciting addition to the industry, the first of its kind, they say. What makes them unique is that all businesses, whether a Restaurant, Dentist, Attorney, Speakers, etc., can come to one stop shop to fulfill all their Marketing needs. "Business owners or their Marketing Managers will only have to deal with 1 person to handle all their marketing and branding, as oppose to calling an SEO guy to try work with your Webmaster and then all attempt to get on a conference call with a copy writer for example. None of that, 1 phone call, 1 person to deal with, 1 stop shop," said Jeannine Barcarse.

More details about these services, perhaps including pricing tiers, available upgrades, any special offers etc.,

to be announced in a near future date through Press Releases, their YouTube / Facebook Channels, and or Website.

"As a web developer, there are so many potential clients that I can work with. Jeannine and Diego created a custom made handy tool not only for me to share my information, but for any person that would like to refer me .... genius." - Jay Woolwine

Jeannine Barcarse and Diego Valencia are Internet Marketing Strategists. Together they help business owners understand the importance of leveraging someone else's time and expertise so that they can concentrate on the aspects of their business that really require their attention.

When Jeannine is not concentrating on helping her fellow entrepreneurs, she can be found enjoying her latest find at Redbox with a bowl of homemade popcorn or a bowl of ice cream or curled up on the couch lost in Sudoku or Spider Solitaire.

When Diego is not helping local businesses you can find him riding his bike at Griffith Park racing his brother and friends up to the Observatory, spending time with his mom, killing zombies on his phone, or coming up with the invention of the week. He loves Lasagna, Paella, and Arepas.
