

New Support Our Troops Motorcycle Flags Launched

July 06, 2016

July 06, 2016 - PRESSADVANTAGE -

Pro Pad Inc., a company based in Mooresville, NC, has launched their 'Support Our Troops' motorcycle flag, which is designed to show support for troops in different branches of the military. The company points out that supporting troops is something that many people openly do, being grateful and thankful towards the men and women who gave their lives and continue to do so, in order to keep the country safe. The flags can be purchased through <http://www.thepropad.com/support-our-troops-motorcycle-flag/>.

Mike Enzwiler from Pro Pad Inc. says: "When we say we support our troops, we mean all our troops, in every branch of the military. We have designed a flag, therefore, that clearly demonstrates this, highlighting the five elements of our great military in the Navy, the Marine Corps, the Coast Guard, the Air Force, and the Army. The flag shows the emblem of each of these elements and can truly be flown with pride."

The flag, which is available in 6" by 9" or 10" by 15" sizes, is presented in dark blue. The emblems of the five elements of the military support the 'Support Our Troops' statement, around a yellow ribbon that is folded such that it is in the shape of a star. All Pro Pad flags are made from UV coated poplin, which means it is UV resistant, while still being machine washable.

Heavy duty material is used in the construction of each flag, allowing for maximum outdoor durability. Each flag is double stitched and double sided, with a flag sleeve that can accommodate up to a 3/8" diameter pole. Customers can choose to purchase a 9" or 13" pole if they do not have one yet, and they can also choose one of many pole toppers.

"The motorcycle culture in this country is strong, and we support that in full," adds Mike Enzwiler. "We personally support our troops, and stand for everything that has made this country great. This is also reflected in the pole toppers we offer, including the American Eagle, for instance."

All Pro Pad flags are 100% cut, printed, and sewn in the USA. This enables them to support the local economy, as well as ensuring the highest possible quality in all their products.
