Boggero's Portable Toilets Continues Its Long Tradition of Serving Greenwood and the Lakelands Region

November 23, 2026

GREENWOOD, SC - November 23, 2026 -
Boggero's Portable Toilets LLC, a family-owned sanitation company based in Greenwood, South Carolina, continues to provide clean, dependable portable restroom rentals for construction sites, special events, and community gatherings throughout the Lakelands region. For residents, contractors, and event planners searching for a trusted portable toilet rental near me, Boggero's offers a full range of construction and special event units backed by decades of local experience.

Boggero's has been serving the Lakelands region with sanitation services since 1937. For construction projects, Boggero's offers several options built for the demands of a job site. The Standard Porta Potty is a rugged unit designed to withstand heavy use and harsh conditions. It has a well-ventilated interior, a sturdy toilet, and hand sanitizer. These units are delivered directly to the job site and serviced regularly by local teams, which makes them a good fit for both residential and commercial construction projects. Accurate, dependable delivery and prompt, professional service have made Boggero's a preferred supplier for the construction trade.

For tall building projects, the Highrise Porta Potty comes with secure lifting hooks and a steel sling. Crews can safely lift it by crane or elevator to provide sanitation at any level of a site. Boggero's also offers fresh water and sewer holding tanks for commercial construction sites. The fresh water tanks provide a steady supply for cleaning and maintenance, while the sewer holding tanks manage waste.

To help contractors plan, the company points to ANSI standards, which recommend one portable toilet per 10 workers for a 40-hour work week. Customers can simply call Boggero's Portable Toilets LLC, and the team will handle the rest.

For weddings, festivals, and outdoor gatherings, Boggero's offers a range of special event units. The Special Event Standard Porta Potty is the company's most popular event choice. It is a cost-effective unit with a spacious interior, equipped with a toilet, hand sanitizer, and venting for proper airflow and odor control. Wedding white units are available on request for a more elegant touch.

The Special Event VIP Porta Potty is a premium option for upscale events, weddings, and VIP guests. It features a flushable toilet with a closed holding tank, a hands-free foot pump for flushing, a sink with running water for handwashing, and a built-in light.

Boggero's also offers ADA-compliant, wheelchair-accessible restrooms with enough space for people to turn around and move freely. These spacious units are well suited to family-oriented events and community gatherings like fairs and festivals. They are praised by parents and caregivers for the extra room they provide.

Portable hand washing stations are available for both job sites and events. Each one is equipped with soap, water, and hand sanitizer. Besides keeping guests and workers refreshed, these stations can reduce traffic in and out of a business or residence.

Whether an event hosts 100 guests or 100,000, Boggero's can help organizers choose the right number of units. The company can help calculate how many are needed, or customers can reach out to one of its event specialists. Optional features, such as a hands-free freshwater sink, are also available.

Boggero's pricing includes delivery, setup, servicing, and removal, with no hidden fees. The company also provides 24/7 emergency assistance.

As a local, family-owned business, Boggero's takes pride in treating every customer with respect, honesty, and personal attention. The company says customers won't get that kind of attention from larger corporate rental companies.

Contractors, event planners, and residents looking for a trusted portable toilet rental near me can request a free quote or contact Boggero's Portable Toilets directly through the company's website at boggeros.com.
