

## **InsideOut Hyperbaric and Wellness Center Opens Doors in Saint George, Utah**

*July 08, 2016*

July 08, 2016 - PRESSADVANTAGE -

Ryan Brinkerhoff and Dr. David Haacke, DO, are the founders of the InsideOut Hyperbaric & Wellness Center that officially opens its doors on July 22, 2016. The Center provides hyperbaric oxygen therapy for a variety of clients.

It is equipped with three hyperbaric oxygen therapy chambers and InBody 770 body composition analyzer that provides a comprehensive view of a body's internal balance. Their Nerve Express scanning technology allows an inside view of how the body's nervous system is functioning. Also, the center carries professional grade nutritional supplements that are vital for a healthy and functioning body.

Hyperbaric oxygen therapy is very popular among professional athletes because it allows them to increase peak performance and heal the body after injuries.

James Harrison, linebacker for Pittsburgh Steelers, stated during a 2011 interview with ESPN, "It's simple!

My body helps make me money! I have a Hyperbaric Chamber that I use to rejuvenate myself. The days that I don't use the chamber, I don't have that extra umph!?

Dr. Haacke mentioned that hyperbaric oxygen therapy goes beyond helping peak performers. FDA (Food and Drug Administration) approved the therapy for the treatment of diabetic wounds, compromised skin grafts and flaps, traumatic loss of blood flow in the arteries, crush injuries and more.

Ryan Brinkerhoff said, "I personally experienced the healing power of hyperbaric oxygen therapy. It became the main factor in making the decision to open InsideOut Hyperbaric & Wellness Center with the combined efforts of Dr. Haacke."

The main goal of the center is to provide the general public with the technology and nutritional support and know how to help them achieve their highest levels of personal health.

The InsideOut Hyperbaric and Wellness Center welcomes new clients. Working hours are: Monday - Friday, 6am - 8 pm. Saturday 9 am - 5 pm.

For more information and schedule an appointment visit the center website: <http://insideouthyperbarics.com/>.
