

Visible PPC Offers Fort Lauderdale Pay Per Click Marketing Consultations

July 11, 2016

July 11, 2016 - PRESSADVANTAGE -

Boca Raton, Florida based Visible PPC has announced a new level of pay per click services for clients, along with complimentary consultations to help those businesses determine what they need. The marketing company recently revealed that they are now offering these consultations to businesses in and around the Fort Lauderdale area, to assist them with their pay per click advertising campaigns.

The company states that with all the recent changes in Google AdWords, businesses now need an expert to help them to run profitable AdWords campaigns with the highest return possible on their investments.

"Visible PPC will help businesses in the Boca Raton and Fort Lauderdale areas by giving them complimentary marketing consultations," says Herb Kornblau with Visible PPC.

Kornblau states that their Fort Lauderdale Pay Per Click Marketing service is essential for businesses that want to reach customers, but he says that most businesses are not up to date on the rules and regulations of this type of advertising, given the changes to Google over the past few years.

"Businesses have to know what they're doing, and they have to know how Google wants things," says Kornblau. "Otherwise they risk being penalized and losing any chance of gaining traffic or customers."

The company provides the PPC management Fort Lauderdale businesses need, along with a variety of other services that assist local and national businesses in reaching their desired traffic. Kornblau states that the consultation offered will help the company to determine what each business needs with regards to its AdWords marketing campaign and will help them to determine the best strategy for helping each business meet its individual marketing goals.

Visible PPC also provides the PPC management Boca Raton businesses are looking for, and urges businesses who are searching for quality leads to take advantage of the consultation they are offering. Kornblau states that this will also give the business the opportunity to see what the company can do for them, and allows business owners the chance to make an informed decision about their marketing efforts. Those interested in learning more about the variety of services that the company offers can visit them on their official website.
