

Plumbing Company In Tallahassee, FL Takes Part In Cell Phone Courtesy Month

July 27, 2016

July 27, 2016 - PRESSADVANTAGE -

Mr. Rooter of Tallahassee, based in Tallahassee, FL, is happy to announce that the company is taking part in the 'Cell Phone Courtesy' month. This Tallahassee, FL home plumber states that while they strive to make a difference in their community through excellent plumbing services, they also want to raise awareness about certain issues, while improving their own services and generally having a bit of fun.

"Few people know that every month is internationally dedicated to something, often multiple things. We felt that the cell phone courtesy element was most relevant to us. After all, there is a reason they call us 'mister' and that is because we are always courteous," says owner of Mr. Rooter of Tallahassee, Holly Tillman.

The area is experiencing record summer heat at present, and this has led to various plumbing problems, not in the least due to overuse of plumbing systems. The Tallahassee, FL plumbing company now seems to be geared towards emergency repairs, therefore, and Mr. Rooter has seen a significant increase in people phoning them, often on their plumbers' cell phones, to request someone to come out as soon as possible.

According to the National Oceanic and Atmospheric Administration, the summer heat is far from over as well.

They predict that this summer will be in the top 10 hottest summers in this country in 30 years. The result is that people use more water and air conditioning services, while water evaporates much more rapidly as well. The chance of problems with plumbing services, therefore, is greatly increased.

For the emergency plumber in Tallahassee, FL, this month is therefore the best month for a cell phone courtesy celebration. They now take frequent cell phone calls from highly stressed customers, who are having an emergency with their plumbing that has to be resolved straight away. By ensuring staff are trained to deal with telephone calls in a proper and polite manner, they have been able to not just resolve their customers' issues, but also provide them with much needed peace of mind, by being able to ensure them that everything will be OK and that they don't have to suffer through the heat.
