

Valley Auto Care Now Offers Computer Diagnostics For European/German Cars

August 01, 2016

August 01, 2016 - PRESSADVANTAGE -

Valley Auto Care (www.valleyautocare.com), a business in Apple Valley, MN, is proud to announce that they have recently invested in a new cutting edge diagnostic tool to assist in diagnosing and repairing European, and particularly German, automobiles. For 25 years, the company has been the area's preferred auto service center. The reason for this is the company's quality of work, the caliber of their staff, and their dedication to continuously upgrade their services.

Scott Brouwer from Valley Auto Care says: "We are committed to serving our customers with integrity and excellence. We are focused on the needs of our customers and on being an ethical company. That is why we also continuously aim to improve our services, which we have now done by adding the new computer diagnostics tools. These tools focus specifically on European cars, which are quite popular in our area."

Valley Auto Care is a fully independent company, meaning they don't have to answer to corporate owners or national dealerships. This means that their focus is solely on their customers, ensuring they always get the best value for money. This focus on ensuring that customers are treated fairly is one of the things that have set the company apart as the best in the area.

This is indicated in the many positive reviews the company has received. "I had a great experience with Roxanne and the guys," says Tony Y. on the company's Facebook page. "I have a very busy schedule that they worked with and accommodated. I told them what I wanted and they exceeded my expectations. If anybody is wondering where to go for exhaust or any other work, I highly recommend Valley Auto Care. Customer service is awesome. Thanks again."

Valley Auto Care focuses on providing excellent service, working solely with qualified mechanics, and offering the best possible prices. Their business philosophy, which has been time proven to be accurate, is to always be the best in business, which is achieved by always improving their skills, knowledge, and available tools. They encourage anyone to contact them to discuss their particular vehicle requirements, or to review the services that they offer.
