

Houston SEO Expert Firm Releases New E-Book

July 26, 2016

July 26, 2016 - PRESSADVANTAGE -

Nova Marketing, a Houston TX based SEO firm, has released a new E-book, "How To Get Great Sales With SEO." The free e-book was released last month in an effort to raise client awareness of the importance of search engine optimization, and encourage more potential clients to begin using the various services offered by the company.

Recognized as a Houston SEO Expert, the company differs from other marketing firms by narrowing their market down to specific types of businesses. The Nova Marketing Discovery Page plainly pinpoints their commitment to customers who have strong active companies, and who already have a high quality product and good standing in their industry. By helping clients who have already taken their first foothold in success, Nova Marketing has been candid that there is a greater chance of reaching goals and surpassing competitors. The following has been said about these tactics: "By experimenting with new methods, they have found solutions and success where others have failed. Quinn Bond is extraordinarily transparent with every customer and is determined to get results. While there are no guarantees to rankings, they excel at providing great value for their clients and guarantee a professional service backed by great results."

Information regarding services offered by Nova Marketing can be found through the company's official website at <http://novamarketing.net>. Here potential clients can fill out the online discovery form to get in

contact with the firm, and learn more about Quinn Bond, the founder and CEO of Nova. Using the discovery form guarantees a response from the company within 48 hours of completion, and for a short time only, Quinn has also offered a free trial of Nova Marketing's services. The announcement for the offer was made on Facebook in June, and notes that the free trial is a great deal for those who are new to Nova.

Information on the E-book is also available through the company's social media platform on Facebook. Those interested in learning more about the e-book release and the benefits of search engine optimization are invited to download their free copy, or contact Nova Marketing for details.
