

Willemstad Budget Hotel Blog Offers Videos And Information For Curacao Travelers

August 01, 2016

August 01, 2016 - PRESSADVANTAGE -

Poppy Hostel Curacao, a budget hotel located in Central Willemstad, Curacao, has recently posted two blog updates which focus on budget travel within the area, and beach views that can't be found elsewhere. Throughout the post on Curacao beaches, the blog offers readers unique aerial views provided by a UAV HD Drone Camera.

The Beaches Curacao Drone Video looks into the best beaches in Bandabou, which is located on the Western coast. Beaches such as Playa Piscador, Playa Forti, and Playa Lagun are featured here, among others. Throughout the video, viewers can take in the bright sights and bold sounds of the area, and plan their trip accordingly. The footage was taken by Skyworks, a Dutch Caribbean video team, which has been partners with the hostel since early 2015.

The hostel asks that viewers provide some feedback, and even suggests that footage may be extended if enough requests are made to the team. Contact information is available through the <http://www.PoppyHostelCuracao.com> website for those who enjoy the aerial tour and are interested in seeing more.

While planning to visit the above mentioned beaches, the Curacao Blog also offers help to tourists in the form of advice on car rentals. To support the concept of affordable travel, Poppy Hostel Curacao suggests weighing cost against benefit, trying multiple agencies, trying small businesses, timing rentals for cheaper seasons of travel, and seeking discounts. One such suggestion says: "Just because you don't see any coupons or discounts online doesn't always mean they don't exist. Call companies and ask if they have any running offers, or if they know of any upcoming promotions. If you're polite and friendly, your agent may be willing to offer you a better deal to secure your long-term business. The worst case scenario is that you don't save any extra money, which is exactly where you started anyway."

For more information on Poppy Hostel Curacao and their most recent blog updates, the company invites travelers to visit them online. The Willemstad hotel also suggests that travelers visit their Facebook social media account at <http://www.facebook.com/PoppyHostel/> for further opportunities of contact, reviews, photos, videos, and more.
