

Sugarmade Partner Company Launches on Kickstarter

July 25, 2016

July 25, 2016 - PRESSADVANTAGE -

City of Industry, Calif., July 25, 2016 - Sugarmade, Inc., and its subsidiary, CarryOutSupplies.com a supplier of products to the quick service restaurant industry announces its partner company, Seasoning Stixs International, is today launching its first product on Kickstarter. Sugarmade has purchased distribution rights to the product and is currently negotiating a contract to provide packaging for distribution.

Jimmy Chan, CEO of Sugarmade commented, "We are excited to be working with Seasoning Stixs on the introduction of this patented product. All of us at Sugarmade believe innovation is important especially within marketplaces that have seen little change as is the case within this subsector of the culinary market."

There are very few areas of the culinary world more unchanged than seasonings and spices. While the pantries of cooks throughout the world vary in the mixtures and proportions of seasonings and spices, the seasoning of meat, fish and poultry is basically the same as it has been for centuries. This changes via today's introduction on Kickstarter of Seasoning Stixs, a culinary innovation so unique its already been awarded three U.S. patents.

Seasoning Stixs are encapsulated seasonings in the form of a "stick" which are inserted into meat, fish and poultry prior to cooking. Seasoning Stixs are a hard solid at room temperature, but as heat is applied, the

sticks change from a solid into a liquid allowing the meat fibers to act like a sponge absorbing all the delicious flavors.

?Seasoning Stixs help the average cook to easily and deliciously season meat, fish and poultry in a manner never previously possible,? commented Katherine Zuniga, Founder of Seasoning Stixs International. With R&D and manufacturing testing completed, the Company is ready to begin production and expects to have Seasoning Stixs in the hands of backers in time for late summer barbeques and dinners with friends and family.
