

Leading Custom Software Development Firm, Cloud Custom Solutions (CCS), Welcomes New Partnerships

August 02, 2016

August 02, 2016 - PRESSADVANTAGE -

Cloud Custom Solutions (CCS), leading cloud-technology and custom software development firm based out of Phoenix, Arizona, is excited to welcome two new dynamic members to their ever-growing team.

"We're pleased to announce that Jewel Green has recently joined our multi-faceted team as Client and Project Success Partner. With so many complex projects in the deep development phase, we needed a strong person to come in and lead our various teams to get the job done right - and on time. In the short time since Jewel has joined, she's brought in her extensive project management experience and has done a great job in leading our diverse teams so they're on track, accountable and pushing to meet deadlines," stated Ben Fatola, CEO of Cloud Custom Solutions.

Mr. Fatola added, "On the client side it's key to make sure client requests are handled sensitively and given priority over other pressing tasks, and as Client and Project Success Partner, Jewel has really excelled. We're really pleased with the decision she's made to join us at a time where exciting things are happening at

CCS."

Cloud Custom Solutions is also pleased to introduce Kori McFadgion, Sr. Enterprise and Application Architect, and current acting Chief Information Officer (CIO) at CCS.

"We're excited that Ms. McFadgion will join CCS as CIO. Having worked as an Enterprise Architect and independent consultant for Fortune 50 to Fortune 500 companies, Ms. McFadgion brings extensive experience in bridging the gap between business and technology, and has worked across both Public and Private sectors for almost two decades for leading companies such as Cisco Systems Inc., Walt Disney World, the Department of Labor and more," Mr. Fatola added.

"Ms. McFadgion will also come in as a leading expert in the technology realm and CCS will leverage her knowledge and expertise to drive educational based learning webinars and content for our enterprising audience."

"As the company grows, it is imperative to bring the right people on board to drive forward change in the direction you want to see the business going," concluded Mr. Fatola.

About Cloud Custom Solutions
