

Younique's New Royalty Line Skin Care Available by September 15, 2016

September 01, 2016

September 01, 2016 - PRESSADVANTAGE -

Younique, LLC, a business in Lehi, UT, is proud to announce the upcoming launch of their new Younique Royalty Line, which includes 11 different skincare products. The products will be available for purchase from September 15, 2016 onwards.

A representative from Younique, LLC says: "Our new line of products will allow you to 'give your skin the royal treatment' it deserves. It enables people to pamper their skin around the clock, pampering themselves with products they already know and love. Added to the line are all new cleansers, serums, moisturizers, and a face mask. Each of these have been designed to make the skin look and feel beautiful. There are also several products using current formulas, with royal new packaging."

There are many skin care products in the new Royalty Line to choose from. For instance, the new detoxifying mask contains an infusion of oxygen, which has been shown to result into brighter, more youthful looking skin. It enables people to unmask the life and beauty of their skin, using ingredients that have been found to help improve its appearance. The mask provides a foaming, tingling, luxurious sensation, oxygenating the skin. This has been shown to help improve overall skin health.

The new mask contains bamboo charcoal, which has been found to absorb toxins, impurities, and harmful substances, leaving the skin pure and radiant. It can also act as a gentle exfoliator to remove dead skin cells, creating a brighter skin tone. Meanwhile, the derivative of vitamin A has been shown to even skin tone, helping to improve skin hydration and texture, thus, giving a full and youthful appearance.

"Our new line also contains a hydrating day cream," adds the representative. "This gives normal-to-dry skin the nourishment it craves. The Younique Royalty Hydrating Day Cream is more than just a face lotion - SPF 20, vitamins C and E, and a variety of plant extracts help protect your skin from the sun. It delivers intense hydration with a soft and creamy texture."

The line also contains a renewing day cream, an instant lifting serum, a moisture boosting gentle cleanser, a pore purifying cleaner, a time correcting night cream, shine cleansing cloths, an uplift beauty serum, a divine daily moisturizer, and a rose water toning spritz. However, the latter will not be available until October 1, 2016.

People who are interested in their products are encouraged to contact them for more information.
