August 19, 2016 - PRESSADVANTAGE -

Sir Costa Rica is a company that charges itself with helping people find the most beautiful properties in Costa Rica. Furthermore, they help people in financing these properties, as well as providing advice on tax breaks and more. They are proud to announce that they now have 75 individual property listings, and that these numbers are growing.

Weldon from Sir Costa Rica says: "We love Costa Rica. It truly is one of the most beautiful places on earth and we would love to welcome more people to this little patch of paradise on the planet, so they can experience this beauty for themselves. We have worked very hard at finding the most stunning properties in the country, and are proud to have 75 listings at present, and that this number is growing. We encourage everyone to browse through our selection of properties to find their own dream home."

Sir Costa Rica, as can be seen on their website at <http://www.sircostarica.com>, also concerns itself with providing details about the country itself. They have listed important details about things such as the climate, the natural environment, the country's history, and more. They also have made a number of comparisons in terms of prices, thereby enabling people to determine whether they are able to afford living in Costa Rica

themselves. This information has been greatly appreciated by many, as it properly enables them to plan their financial future.

"The majority of people who come to us are those who want to retire, or otherwise enjoy life in a tropical climate," adds Weldon. "We want to make sure that they understand the financial implications of doing so, and the benefits for them as well, particularly in terms of taxes. Living in Costa Rica, in other words, has never been easier or cheaper and it really is possible for anybody."

The full list of 75 properties that the real estate agency currently has on file is available through <http://www.sircostarica.com/eng/sales/cr>. It is also frequently updated, which is why people are encouraged to return to the page frequently. Various filter options exist to help people find their preferred property.
