

## **Pro Pad Releases Quilted Diamond Mesh Motorcycle Seat Pad**

*August 22, 2016*

August 22, 2016 - PRESSADVANTAGE -

Pro Pad Inc., a business in Mooresville, NC, which has dedicated itself to creating accessories for motorcycles that are 100% made in the USA, has introduced a seat pad that keeps the rider cool during hot days while allowing a more comfortable ride. Their newest addition to their seat pad line up is the diamond mesh quilted mesh gel seat pad. The long awaited pads, available through <http://www.thepropad.com/quilted-diamond-mesh-gel-seat-pads/>, are flying off the shelves.

Mike Enzwiler from Pro Pad Inc. says: "For us, riding a motorcycle is all about freedom. There is no room for discomfort in that, but we know how hard it can be to ride for miles without getting a 'numb butt'. Thanks to our new quilted diamond mesh motorcycle seat pads, there is no need to worry about that anymore."

The gel inserts have been designed to allow someone to ride for a longer period in comfort. The mesh fabric, meanwhile, ensures that people stay cool even when riding on hot days. Pro Pad has released the seat pads in five different sizes, to fit virtually every style and type of motorcycle. The sizes come in small, medium, and large, as well as SuprCruzr and Touring.

Marlyn and Rod, two long standing customers of Pro Pad Inc., have already tried the seat pads and have been very happy with their riding experience, as they have expressed on the company's website. "The pro pads and as we call them (Butt Pads) really saved our butts. Ours is a older Harley so seats are bottoming out. The added cushion absorbed a lot of the vibration. Took a bit of getting used to and I can't tell you why but it just did, and to get them where it is the most comfortable for the rider. We didn't have to strap them down. They stayed in place."

The pads have been designed with comfort and ease in mind. They simply strap onto the existing seat pad, instantly providing a soft cushion that allows air to flow through. Those who are unsure about which size is right for their motorcycle are encouraged to contact Pro Pad to help them select what is appropriate for them.
