

Atlanta Based Real Estate Broker Is Shaking Up the Southeast Real Estate Community With Groundbreaking New Services

August 17, 2016

August 17, 2016 - PRESSADVANTAGE -

SayYes Realty llc, based in Atlanta Georgia, has announced the development of a very unique, full service real estate listing process. The real estate experts recently revealed that they are now providing full service real estate listing services for only 3% in fees as opposed to the industry standard of 6% and for buyers, they are launching a 1% cash back program for using their service to help you find a home or investment property.

Jeff LaVigne, Managing Partner with Say Yes Realty llc says, "The main goal of our new 'Equity Saver' program is to help clients preserve the equity in their home by minimizing their closing costs and agency fees. We still offer the full range of consulting and supportive services that agencies charging 6% do, we just cut our fee by 3% and put that back into the homeowner's pocket."

Say Yes Realty's team of agents and brokers provide an online digital portal to all the latest listings and properties available at SayYesRealtyllc.com The agency specializes in residential and commercial properties in Georgia, Alabama, Florida, North Carolina, South Carolina, and Tennessee.

Their new real estate services will not only help buyers and sellers using the agency but they have even developed a For Sale By Owner Option, if sellers would like to use the high traffic platform of Say Yes Realty llc but don't want to use an agent for their listing, they can take a low price option for service.

LaVigne states that the real estate company will help their clients by attracting attention to their online listings using numerous real estate platforms and introducing millions of investors and buyers to their unique listing and by utilizing digital media outlets and social media channels.

"Social media is a key asset that many clients overlook and fail to use in the marketing of properties," says LaVigne. "Clients know what Facebook, Twitter and the other media platforms are, but don't know how to use it effectively for advertising, and attracting buyers. Our job is to introduce thousands of buyers and sellers

to our listings through the latest forms of digital and direct media channels in order to get properties sold. It's all about results.?

LaVigne says that the company can best assist sellers by creating traffic and attention to their property listing and ensuring that they reach investors as well as potential buyers.

Buyers will also be well served with Say Yes Realty's expansive MLS and private listing database when searching for potential properties. The property location and listing tools are some of the best in the industry and with a few clicks of a mouse, your ideal properties are there in front of you, and if you decide to buy through the property portal, you receive 1% cash back on your transaction—an average \$ 1,900 back in your pocket in the Atlanta market.

In addition to changing the face of Southeastern real estate transactions, Say Yes Realty llc has developed a unique commission program for participating agents on these transactions that will allow them to take advantage of the new technology and pricing program.
