

Dentistry At Central Medical Now Offers Teeth Whitening

September 01, 2016

September 01, 2016 - PRESSADVANTAGE -

Dentistry at Central Medical, occupying an office space in Central Medical multi-use building, now offers \$149 tooth whitening.

Dentistry at Central Medical provides professional tooth whitening at the lowest rates nationwide. Because they do all lab procedures in their office, they can provide top quality tooth whitening for \$149. Whitening services are regularly over \$400 at other dentistry offices.

"Tooth colored restorations have been available at our office for all teeth for years. We constantly update our techniques and materials. We pride ourselves in the beautiful cosmetic and esthetic dental procedures that we perform," says Dr. William H Johnson II, DDS.

Doctor Johnson has practiced Dentistry for 33 years, including 26 years of private practice at Central Medical.

Dentistry at Central Medical also offers high precision, beautiful crown and bridge treatment. By partnering with the top dental labs in the city, Dentistry at Central Medical provides unequaled quality for crowns and bridges.

Other services offered include: veneers, state-of-the-art endodontics, dentures/partials, cosmetic procedures, periodontal disease, crowns/bridges, bad breath concerns, nitrous oxide, and more.

Dentistry at Central Medical are located in a medical specialty building in the St. Paul Midway area. The Central Medical building has a periodontist (gum specialist), and a root canal specialist. The wide variety of Medical specialties includes the best MRI facility in the city.

"Your initial oral examination includes a visual examination, charting, periodontal probing, diagnosis and treatment recommendations. We will also take x-rays, which includes the panoramic x-ray for proper diagnosis of the anterior (front) and posterior (back) teeth as well as the bite-wing x-ray series for proper

diagnosis of proximal decay of posterior teeth," says Stephanie Johnson of Dentistry at Central Medical.

Dentistry at Central Medical's office is equipped with three modern operatories. Their lab has the latest in high-tech sterilization equipment. Only purified water (carbon filtered, ozonized, and exposed to intense ultraviolet light,) is used at the point of delivery of our dental drills and water sprays. They also have nitrous oxide (laughing gas) delivery systems in each of their operatories. Patients may use this form of conscious sedation for any type of appointment at the office.

For those patients that prefer or require special teeth cleaning equipment, Dentistry at Central Medical have the newest model of a "cavitron." This provides ultrasonic cleaning and has an enclosed "prophyjet" device. This allows a cleaning without the "gritty" paste.

Modern nickel-titanium rotary root canal instrumentation is available. Their "RootZX" computer simplifies and decreases the time spent doing root canal procedures.

Bleaching (tooth whitening) trays are fabricated quickly and efficiently on site with their ultravac and ultralume.

Air quality is maintained at an optimum level at Dentistry at Central Medical with electronic air purifiers. There are virtually no dental smells nor airborne allergens in their office.

Their office files insurance claims electronically for most dental insurance companies. Call Dentistry at Central Medical to find out more details about insurance and their financial policy.
