

eShipper Revamps Their Website

August 26, 2016

August 26, 2016 - PRESSADVANTAGE -

Mississauga, Canada - July 1st, 2016 - eShipper will launch a new website to simplify the process of scheduling, and tracking shipments on a cloud based platform.

A division of Canada Worldwide Services Inc., eShipper works to provide companies with logistical and shipping solutions, and has updated their website for simpler usability. Popular options including speaking with a live representative online, integration with shopping carts, requesting free quotes, and tracking shipments are now easier to access.

With the company's vision of redefining shipping, eShipper's upgraded webpage hopes to provide web based services in the same standards as their program's services. Their new website will be used to increase awareness of their platform that includes:

? Instant Multiple Quotes

? Viewing Multiple Carrier Services

? Generate & Print Carrier Compliant Shipping Labels

? Scheduling Online Pickups

? Track & Trace

? Maintaining Address & Product Books

? Creating Inbound Shipments

? Distributing Capabilities

? Shopping Cart Integration

Offering cloud based shipping programs to track and maintain orders is highly sought after by companies. Creating a user-friendly website to assist with these programs is what eShipper wants their customers to receive with this new launch. Follow this link to visit the new website: www.eshipper.com.

Since launching in 2005, eShipper has been tried, tested and proven by thousands of satisfied customers. They take great pride in their constant innovation on eShipper platform by adding new features, functionalities and services to allow their customers to enjoy a seamless and a user-friendly shipping platform.
