Enhanced Heating and Air Announces Opening of New Location

May 30, 2014

May 30, 2014 - PRESSADVANTAGE -
Newark, Delaware., Enhanced Heating and Air announces the opening of their new location at 68 Albe Drive in Newark Delaware. Advanced Heating and Air is a leading HVAC service provider in Delaware specializing in providing quality services for first-time installations, replacements, and repair on HVAC units.

Advanced Heating and Air maintains a highly qualified team of HVAC technicians that have many years of experience in HVAC installations and repairs. ?Serving the counties of Kent, New Castle, Chester, Delaware, and Pennsylvania Counties, our technicians can efficiently handle residential and commercial HVAC projects with complex requirements? said CEO Joe Brooks. As a full service heating & cooling system provider Enhanced Heating and Air will work to find the right heat pump or air unit for your home or business, at a fair price.

?We understand that there is no convenient time for your heating or air system to break down. That?s why we offer a full range of installation and repair service 7 days a week.? With fast, courteous service and unparalleled expertise, Advanced Heating and Air has acquired and serviced hundreds of customers and has been named the favorite Delaware heating and air company throughout the service area.

As a leading Delaware heating and air service provider, Enhanced Heating and Air offers new HVAC unit installation, maintenance, and 24 hour emergency repairs throughout New Castle and Kent County Delaware, Cecil County MD, and parts of Pennsylvania just over the border. Our long range of HVAC service options includes Heater & Boilers, Air Conditioners, Heat Pumps, Water Heaters, Indoor Air Quality units, and Humidifiers. ?We even offer seasonal rebates on many of our leading product brands?, says Joe Brooks.

As a BBB accredited HVAC Contractor in Delaware, Advanced Heating and Air provides many market-leading brands that deliver broad capabilities and a wide array of innovative, heating, cooling, and air management technology-driven products and solutions for home and at work. Advanced Heating and Air offers a wide range of HVAC services, specifically engineered to meet client's needs and requirements. From custom orders, to reliable 24-7 service, to energy efficiency and renewables, Advanced Heating and Air

provides clients with the most effective solution. ?Be sure to take advantage of our outstanding dedication to quality and integrity. We have acquired and serviced hundreds of customers and will continue to provide quality, trustworthy service for years to come.
