

60x Custom Strings Features Custom Compound Bow Strings Builder On New Website

September 06, 2016

September 06, 2016 - PRESSADVANTAGE -

60x Custom Strings in Cowansville, Pennsylvania has announced their new website, which features an interactive virtual bow string builder. The builder allows customers to come up with customized bow strings for compound, recurve, longbow, and crossbows.

Brad Patsy, three time world and five time national champion and founder of 60x Custom Strings says, "Customers can choose from hundreds of custom bow string colors and styles. We're very excited to have finally launched the updated site and the virtual bow string builder."

Patsy states that the company offers a number of well-known name brands, including BCY and BEAR. He says that the company's products, such as their compound bow strings, are known for their quality and performance. He states that the new virtual builder gives customers the opportunity to create the specific strings that they need and want, with numerous choices available.

The website offers a look at all of the colors for custom bowstrings as well as ready to ship items. Patsy says that their goal is to deliver quality strings and other bow equipment and to do so quickly.

"We pride ourselves on providing only top quality strings to OEM bow companies as well as retail customers, dealers, and distributors, and we always ship your strings out as quickly as humanly possible," Patsy states.

The company builds their custom bow strings in a state of the art production facility in Pennsylvania, using the best equipment to ensure the best, and most affordable strings. Patsy says that in addition to the bow string builder on the website, the company also offers a blog with tips and information for everyone interested in bows, from new to seasoned users.

60x Custom Strings offers bow strings from brands, such as Oneida, Genesis, and a host of others, as well as various other products including archery products from Zenith and Xtreme Stabilization, serving material, arrow rests, and apparel.

Patsy states that anyone interested can visit the website now and try out the new interactive virtual bow string maker. Those interested in reading the blog or want to learn more about the company can also visit them on their official website.
