

Medallion Company In Suwanee GA Announces 58th Year In Business

September 13, 2016

September 13, 2016 -
Specialty Engraving & Trophies, Inc. in Suwanee, Georgia, has announced that they are heading towards their 58th year in business. The company was founded in 1958 and since then, it has been providing specialty engraving for a number of awards and events.

Carey Wilson with the company says, "We're pleased to have been assisting our customers for so long, and we look forward to another 50 years or so of serving our community."

Wilson says that what has kept them in business for so long is their complete dedication to customer satisfaction. He states that aside from the fact that they are faster than their competitors, being local makes them more appealing to many consumers, and they offer prices that are often much lower than other similar companies.

"We manufacture our own products," says Wilson. "This means that our normal delivery time is up to five business days less than most other companies, and we offer same day service on some occasions."

Wilson says that this, combined with the inventory that they offer, has helped the company to grow into a provider of medallion Suwanee, GA residents can depend on. He says that no other engraving company has been manufacturing awards in the Atlanta area longer than Specialty Engraving & Trophies, Inc., which is another reason for their loyal following.

The company's average employee has no less than 14 years of experience in the field of awards, medals and trophies. Wilson says that this shows customers that they have the knowledge needed to ensure their complete satisfaction. The company is a member of the Metro Atlanta Chamber of Commerce, as well as the National Awards Recognition Association, and the Awards Associates of America.

The company provides a variety of awards and recognition products including art glass, crystal and glass awards, acrylic awards, plaques, trophies, and name badges. They state that they are honored to have been around for nearly 60 years, and that they hope to be able to assist customers in the future as much as they have those in the past. Those interested in learning more about the company's history or seeing the products that they offer can visit them on their official website.
