

Robichaud Homes Announces To Homeowners, "You Can Sell Your House Fast"

May 23, 2015

May 23, 2015 - PRESSADVANTAGE -

A new company was recently established in Houston, Texas, that is prepared to purchase unwanted homes from homeowners in the region. The company, Robichaud Homes, says they have a 4-step system that will ensure that homeowners can sell their homes in a relatively short period of time and at a fair price as well.

Company spokesman Pierre Hamilton has stated, "We buy Houston houses fast... If a homeowner is looking to sell a house quickly and avoid all the hassles associated with home selling... we buy houses in Harris County, including Houston and all surrounding areas." For those who are ready to sell their homes fast, they have a proven process called "The 4 Step Simple Sold System." He stated that those who follow this system will end up with an "all-cash, fair priced offer on their house within the next 24 hours."

Company representatives have said that their system replaces the traditional house selling method of sticking a sign in the yard and having strangers walking through the home, letting them look at one's personal belongings. Instead, homeowners will be dealing with professional house buyers who can affect a purchase quickly and discreetly ensuring that they get a fair market value at the same time.

They also promise that the condition of the home need not be a major concern for homeowners. They will buy a home regardless. So, whether the home is in perfect condition or is in need of a complete overhaul, they can still finalize a purchase. Homeowners looking for immediate cash need not concern themselves with making any additional repairs or cleaning up of the property in order for the sale to go through.

The 4-step system is made up of 1) making the initial contact, 2) outlining the different options available, 3) making an offer, and 4) finalizing the purchase.

Robichaud Homes representatives said they will purchase homes anywhere in the city of Houston or in any of the surrounding communities. They stated that anyone who needs to sell a house should be able to work out a reasonable deal with them, regardless of their circumstances. They listed some types of previous clients who have sold their homes to them including people who are relocating to a new city, needing to get rid of a problem tenant, not able to sell with an agent, limited amount of time to make a sale, dispensing of an inheritance, facing foreclosure, needing to pay medical bills, or facing a divorce.

Hamilton explained that regardless of their reasons for selling their home, the one thing they all have in common is that they wanted it to be done fast and that is the one factor their company can deliver. It is a simple solution that homeowners can seek out that eliminates much of the typical hassles often associated with selling a home.

And for those who wish to donate a real property to Robichaud Homes, there is a new promotion they are introducing where \$5,000 will be donated to the charity of their choice. Also, for those who sell their home to the company before September 1, 2015, Robichaud will be able to get a donation of \$1,000 sent to their favorite charity. Those who are interested can click here for more info.
