

Auto Repair Company In Apple Valley MN Announces Winterization Services

September 19, 2016

September 19, 2016 - PRESSADVANTAGE -

Valley Auto Care in Apple Valley, Minnesota wants to remind consumers to prepare their motor vehicles for winter. The company has recently stated that they are now providing winterization services for their customers. Scott Brouwer owner of Valley Auto Care says, "We'll prepare your vehicle for the cold weather and make sure your tires have enough tread for winter traction."

Winter in Minnesota can get very messy, and residents need to ensure that their vehicles will get them where they need to go without getting stuck in snow and slush, particularly in sub-zero temperatures. Valley Auto Care offers a wide range of services and can help consumers prepare for the winter months by ensuring their cars and trucks are in top shape before those colder temperatures arrive.

"In 2014 we had a horrible snow storm and many people were stranded," Brouwer says. "We want to make sure that if you get caught out in the snow, your vehicle will get you home."

Aside from tires, it is essential that consumers prepare their vehicles to withstand temperatures that will drop far below 0 degrees. Adequate anti-freeze protection is required to keep cars from freezing, which could

result in costly damages.

Technicians at the auto shop are experienced in replacing and repairing tires, as well as performing tire rotations, alignment, and balancing. The company carries a number of brand names for tires including Toyo, Bridgestone, BFGoodrich, Dunlop, and a number of others. Brouwer says that customers who have not had their tires rotated or checked within the past few months should schedule an appointment to ensure that they are ready for snowy roads in the coming winter months.

Valley Auto Care has been in operations for more than 25 years, and has a staff of ASE certified technicians with training in a number of automobile makes and models. The company states that they have built a community reputation on providing services for a range of cars, trucks, SUVs, including BMW, Mercedes, VW and Audi to name a few.

Those interested in learning more about the company or the winterization services they are offering can visit them on their official website at valleyautocare.com.
