

Top Dog Nutraceuticals Re-Launches its Flagship Product ? Premium Hip & Joint Complex for Dog Arthritis Pain Relief

September 26, 2016

September 26, 2016 - PRESSADVANTAGE -

Lake Mary, FL - Top Dog Nutraceuticals is proud to announce the re-launch of their best-selling and Improved Premium Hip & Joint Supplement for dogs to relieve arthritis. The product still consists of the powerful ingredients Glucosamine, Chondroitin, Manganese and Turmeric ? substances that have numerous reported health benefits. Highlighting the turmeric which acts as a natural anti-inflammatory agent that reduces joint pain and arthritic symptoms in humans as well as an effective dog arthritis pain relief ? symptoms common in aging dogs.

?Top Dog Premium Hip & Joint Complex? is different from almost all its competitors because it contains turmeric, a natural herb which, among many other things, acts as a powerful anti-inflammatory agent, providing additional pain relief for suffering dogs. ?We also improved its chicken and liver flavor, so it?s easier to give to our furry friends who will love the taste,? said Troy Larsen, general manager at Top Dog Nutraceuticals.

According to this report from Time Magazine cats and dogs nowadays are enjoying their golden years more, compared to the past. This is due to pet owners being more informed about how to care for their pets, regular check-ups, dental care and other preventive measures.

The product from Top Dog Nutraceuticals joins this advocacy by improving their bestselling Premium Hip & Joint Supplement for dogs. The Company is proud to introduce this all new and improved product as a unique supplement not only meant to provide relief, but also to prevent hip and joint pain. The supplement is proudly manufactured in the USA and Top Dog Nutraceuticals assures pet owners that no additives or harmful ingredients are added to their supplement to ensure the effectivity of every chewable tablet. Top Dog Nutraceuticals backs up the integrity of their product with a 100 % money back guarantee.
