AdvantaVita Moringa Power Now Part Of Amazon Subscribe & Save Program

October 11, 2016

October 11, 2016 -
Deerfield Beach, Florida based company AdvantaVita provides a number of health and wellness supplements that can be purchased through the Amazon marketplace. The company has now announced that their popular Moringa Power product is now part of the Subscribe & Save Program of Amazon.

Chris Johnson with AdvantaVita says, "Not only can our customers get this supplement which has been found to have a number of health benefits, they can now get it at a substantial discount through Amazon."

Amazon's Subscribe & Save Program allows consumers to set up regularly scheduled deliveries and to earn savings on various products. Once they subscribe to receive a product regularly, they can enjoy savings of up to 5 percent or more. Additional savings are offered when five or more products in the program are selected. More about the product can be seen at https://www.amazon.com/Premium-Organic-Moringa-Oleifera-Certified/dp/B018SNXXNG/.

Johnson says that many consumers are realizing the benefits of Moringa oleifera, which is the plant-based ingredient in AdvantaVita's Moringa Power. He says that Moringa contains more than 45 antioxidants and

over 35 natural anti-inflammatory agents. The overall nutritional value is high due to the number of macro and micro nutrients in the plant.

"It's a supplement that is great for everyone," Johnson states. "Very rarely today do we get all of the vitamins and nutrients we need strictly from food. This product provides a powerful supply of nutrients and agents that has been found to have many health benefits."

More about the health benefits of Moringa can be seen at https://en.wikipedia.org/wiki/Moringa_oleifera.

Johnson says that because the supplement is something that consumers will want to ensure they have on hand every day, the company decided to be part of the subscription program of Amazon. He states that this gives customers a ready supply of Moringa, and they will receive notification when the time comes for a new supply to be delivered.

Moringa has been proven a good source of protein, as well as a source of nearly 20 amino acids, Vitamin C, Vitamin B6, Magnesium, and several other nutrients. More about the Moringa Power offered by AdvantaVita can be seen on their website at http://advantavita.com/moringa-oleifera/.
