

El Cajon Carpet Cleaning Company Launches New Website

October 26, 2016

October 26, 2016 - PRESSADVANTAGE -

Warner Carpet and Tile Cleaning in El Cajon, California, has announced the launch of their new website. The company provides floor cleaning for area residents and businesses, and has been doing so for a number of years.

Chad Warner with the company says, "We just felt that it was time to take our business online. We want people to be able to see the services we offer and get a look at our history, so they'll know that we're a trustworthy company and that we have been around for several years."

The company provides carpet cleaning, tile and grout cleaning, and upholstery cleaning in El Cajon and all of San Diego's East County. Warner Carpet and Tile Cleaning was originally established in 2001, and has been providing superior services to area home and business owners for more than 15 years.

"We've had several satisfied customers over the years," Warner states. "You can take a look at our Yelp page to see some of the stellar reviews we've received since we first began."

The company states that their new website was developed with their customers in mind. It offers ease of use and provides a quick overview of the company's services as well as in-depth details of those services on the inner pages. Warner states that they thought about what their customers would want to see when they developed it, ensuring that the information is easy to attain and even easier to understand.

Warner Carpet and Tile Cleaning services carpets and rugs to give them a new carpet feel. The company states that their services can help to prolong the life of carpets, and they offer tile cleaning as well. Warner adds that it is often difficult to get grout clean and that homeowners are sometimes at a loss as to how they can restore the look of their tile flooring.

The company offers professional tile and grout cleaning, as well as cleaning for furniture and other upholstery, which includes spraying upholstery with a protector to create a barrier against dirt and soil, as well as normal wear and tear.

More about Warner Carpet and Tile can be seen on their new website at <http://www.warnercarpetandtile.com/>.
