Healthy Clean Pet Announces Good Reviews For Natural Antifungal Dog Spray

November 02, 2016

November 02, 2016 -

Pets are people's companions and are a true part of the family, and because of this, they also require specialized care and attention. It is particularly important to take care of the skin of pets, and to take immediate action when an infection of the skin becomes apparent. Healthy Clean Pet, a business in Tucson, AZ, which offers an antibacterial and antifungal spray for cats and dogs that can help prevent skin infections, made solely of natural ingredients, has announced that the spray has had good results and good acceptance in customers since it was launched. It is available through <https://www.amazon.com/Antibacterial-Spray-Dogs-Cats-Alternative/dp/B01183Q7HW/>.

Gustavo Guerra from Healthy Clean Pet says: "Bacterial infections are present in many skin diseases that have not received adequate treatment to remedy them. That is why it is important to constantly check the health of pets and to use natural products when treating infections."

He adds: "Pet owners usually spot the skin infection quickly because their pet's skin are red and may include intense itching, skin irritation, scabs, bad smell, inflammation, deterioration of the coat and pus (thick yellow discharge, reddish or greenish). It is easy to spot since in deep infections the animal might show signs of

discomfort. When an infection is spotted, all they have to do is use our natural antibacterial and antifungal spray to get rid of the fungi and bacteria on the skin."

For Healthy Clean Pet, as can be seen on their website at <https://healthycleanpet.com/>, the goal is to make sure that pets, be they dogs or cats, receive the best care possible. They offer a range of different shampoos, conditioners, detanglers, dental products, odor eliminators, and antibacterial products, all made up of natural ingredients. Put together, these products ensure that the animals can live the happy, healthy life they are entitled to.

To further provide advice, information, and guidance to pet owners, Healthy Clean Pet has also launched a YouTube channel on <https://www.youtube.com/channel/UCQ7Igh0YsPgFBpvLcRS0tBg>. Here, they share important information on how to properly care for their animals, and how to use their care products as well.

When Healthy Clean Pet launched their product, they set out to create something that would assist the current health of dogs and cats, but prevent future issues as well. They do this by only using natural ingredients, which will never harm the dog's skin, coat, or overall health.
