

Loves Park Towing Firm Now Provides 24/7 Service

October 24, 2016

October 24, 2016 - PRESSADVANTAGE -

Loves Park IL: Area's Best Towing and Chris Kaminsky are pleased to announce that the towing service firm is available 24/7 to motorists in the Loves Park, Machesney Park, Roscoe, Rockton and surrounding areas. Regardless of the type of roadside assistance which is needed, the experienced, enthusiastic, and kind staff members are available to provide solutions. Towing services are supplemented by an entire range of additional services which are available to drivers in need.

According to owner Chris Kaminsky, speaking in a recent interview, "Besides our towing service Area's Best Towing also provides you with many other services, including out of gas services, flat tire services, battery jump start, dead battery assistance, and many other roadside services. If you are locked out of your vehicle, your car is broken down away from your home, or you didn't realize the gas gauge was reading a little high, we are available to help. Maybe your tire blew and you realized your spare is also flat."

Roadside assistance needs don't often happen at the most convenient times. Commuting to work or school, when headed to a business appointment, or when the temperatures reach the high 90s, or the low teens is a time when prompt and efficient service can be critical to health and well-being. The rapid response of the professional tow truck drivers helps to make the best of a bad situation.

The tow services and equipment are available to provide help in towing a wide range of vehicles safely and efficiently. The team of professionals makes every effort to get the stranded motorists and vehicles back on the road again as soon as possible. The flat-rate service fee is designed to be the most affordable one in the entire service area. There are no hidden fees or surprise add-ons to the quoted price. Although no motorist wants to be in a position of needing roadside assistance, the Area's Best Towing team takes some of the stings out of the situation.
