Milton Attorney Releases Information On Accident Statistics

October 27, 2016

October 27, 2016 -
The fact that accidents happen is well known to everybody but Gross & Schuster P.A., a personal injury lawyer firm in Milton, FL, has made a commitment to making the community a safer place. To achieve this, they engage in strong outreach and community work in order to address some of the greatest dangers in the community. The Milton attorney firm has released new information on the most common personal injuries involved cars, trucks, and pedestrian accidents.

"It seems sometimes that despite all the hard work that has gone into community outreach and education, our roads are getting more dangerous rather than safer," says Terence Gross, co-founder of Gross & Schuster P.A.. "We want to do all we can in order to improve the overall health and happiness of people in the Milton area, and have therefore compiled a report of some of the accidents involving cars, trucks, and pedestrians that have taken place."

The statistics include a car accident in which four were injured, one of which was serious, in a six car wreck. It also discusses the death of a 40 year old woman in a two vehicle collision. Three pedestrian accidents resulted in fatalities as well, and in one single car accident, two people were killed instantly. A truck accident resulted in another fatality, and there have been numerous car and pedestrian incidents in which people have been critically injured. Unfortunately, some of these cases continue to be open, as there were a number of hit and run accidents as well.

Terence Gross adds: "Hit and run accidents are the worst of all. People who are the victims in these cases see their life thrown upside down, and they have no one to turn to in order to recover from their damages. We encourage them to contact our team of Milton lawyers to discuss their options."

The Milton personal injury attorney is continuing to look at methods to help reduce the accident statistics and increase overall road safety in the area. Meanwhile, they encourage anyone who has been involved in a personal injury accident to contact them.
