Simply Pets Online has just released a new cat food bowl designed to make the cleanup process easier for pet owners. The product features an all-in-one feeding mat and bowl construction that promotes one-step cleaning with warm water and soap and is dishwasher safe.

Made from 100 percent food-grade silicone, the cat food bowl was created by professional veterinarians who have used the product in their own veterinary clinics to minimize messes and allow cats to enjoy feeding time. It is made in the form of a happy cat and is compartmentalized. A 1-inch deep ridge allows pet owners to separate wet or dry cat food, cat treats, or water when feeding their cats. Its flat, non-skid silicone base also prevents food from spilling onto the floor while cats have their meals.

Clean up after meal time is made simple due to the non-stick silicone material the product is made from. Users simply remove food debris and place the food bowl into warm, soapy water or in the dishwasher. The product can be drain-dried and ready to use for the next feeding, or stored in cupboards and drawers. In

addition to preventing messy cleanups, the KittyMatBowl from Simply Pets Online is also cat-friendly, being gentle on the teeth of cats and is free from BPA, BPS, PVC, Phthalates and lead, contaminants that can pose serious health risk for animals.

The silicone Kitty Mat Bowl has been launched on giant shopping portal, Amazon, and has become popular with several shoppers in the short time since its release. A number of reviews have highlighted the product?s easy clean design as one of its main benefits, as well as its ability to prevent food and water spilling on the floor.

??I'm using all 3 compartments for water it seems to be doing its job. So far no water on the floor which makes me happy,? said Chloe2012, a verified Amazon reviewer.

Pet lovers who are seeking easy clean, no-mess feeding bowls for their cats may consider the new product from Simply Pets Online. All purchases come with a full money back guarantee.
