

New Advice on MoneyNing.com on Saving Money with DISH Network

October 25, 2016

October 25, 2016 -
Irvine, Calif. ? Everyone is tired of paying outrageous cable bills, so it?s good to know what alternatives are out there. DISH Network has one of the best track records for their customers, and MoneyNing.com has recently posted a blog that tells people how to find them.

?You?re going to change providers anyway, so why not save additional money while you?re at it?that?s why I created this handy guide,? founder David Ning said. ?A DISH Network promo code can save you a lot of money, if you can find one.?

There are many providers out there including Verizon, but DISH Network is one of the largest and has an excellent reputation, not only for price, but also customer service. DISH Network promo codes for new customers are some of the best around, but they can be elusive. Ning has searched the Internet to find the most sought-after promo codes and put all that information into a single post.

The codes are only available for a limited time, so Ning is constantly on the lookout for new codes, and wanted to share the information with everyone. ?My goal is to save people money,? Ning said. ?I verify each

and every code to make sure it?s valid and note how long it is valid for. I take old codes down and put new ones up.?

DISH Network promo codes for existing customers help people who already have the company?s satellite services, and Ning keeps track of these codes as well. DISH not only wants to get new customers, but also provide incentives to those they already have.

For more information about DISH Network promo codes, the blog post, or to schedule an interview, contact Ning at david@moneyning.com or call him at (714) 261-1980.

About David Ning:

David Ning provides people with a common-sense approach to saving money, achieving fiscal responsibility and securing financial freedom through his website MoneyNing.com. He encourages people to take control of their finances and offers practical ways to save money. His blog helps people become debt free, shows people how to build wealth over time, and lets them see how financial choices can impact their lives. It can be difficult to build a solid financial foundation, but David Ning provides the building blocks to achieve financial independence.
