

McKenzie & Willis Now Offers Bed And Mattress Options

October 26, 2016

October 26, 2016 -

McKenzie & Willis provides an online shopping experience for customers in New Zealand. The company also has multiple retail outlets.

Christchurch NZ: McKenzie & Willis is pleased to invite online and retail store customers to review the many options in mattress & bases which are available today. The best-known manufacturers and brands in the world are included in the options which are featured online. Since so much of a person's lifetime is spent sleeping, finding a bed which is comfortable and supports the back, neck and hips correctly will result in improved health.

Manufacturers of furniture and beds for the bedroom are the best known and highest quality firms in the business. The sizable investment in this type of furniture insures customers that they are getting the best possible options. Manufacturers include Turnwood, Sleep Maker, AH Beard, Mealy and Beauty Rest. The selection showing in the category allows for a variation in mattress firmness and size, as well as the type of base which is selected. Customers may need a single bed size, or as large as a Super King.

Some customers prefer the open look of slat beds. There are several options featured on the website so that the preferred size and brand can be selected. Manufacturers include East West Designs and Turnwood. Both brands offer top quality choices so that customers can depend on durability, style and construction techniques. The slats provide plenty of support for the mattress without the weight of a bed base.

Toppers & protectors are designed to extend the life of mattresses and pillows. The products are placed over the surface of the mattress, in the case of the topper, or over the pillow. The bedding and linens are then applied over the protective pieces. When laundering or cleaning is necessary, these items are easily removed, cleaned and replaced. They are available in various sizes to fit the mattress or the pillows for which they are intended. The use of these items keeps the regular bedding pieces in pristine condition.
