

Book Signing Session for ?The Networking Revolution? Set for October 29th

October 28, 2016

October 28, 2016 - PRESSADVANTAGE -

Author Jessica Higdon has recently co-authored a new book, ?The Networking Revolution?. She will be holding a book signing session at Barnes and Noble (Waterside Shops, 5377 Tamiami Trail N, Naples, FL 34108) on Saturday, October 29th, 2016, from 2pm to 4pm. Jessica Higdon and April O'Leary, who co-authored the book, will be in attendance.

Jessica Higdon herself says: "I am so excited to be able to launch ?The Networking Revolution?. I had a fantastic time writing this book with April, who is a real expert in her own field. Together, we have aimed to put together the five most important ways in which women are changing their lives through business ownership. We look forward to seeing all of you, men and women alike, for the new book signing on October 29."

"The Networking Revolution? has been written for women who have long dreamed of becoming a home business owner. Whether they hope to earn a small extra income each month, want to have a more flexible lifestyle, or earn a full-time income, this book will show them how. Higdon and O'Leary point out that, through their book, women can become home business owners in as little as 24 hours.

The authors are voices of authority on the subject. Higdon is a top earner in her own company, and she has created a 10K Social Media Recruiting Formula. This formula has helped various home businesses build teams and increase their own home business income. O'Leary, meanwhile, is a highly respected Life and Business Coach. She has worked with women all over the country to empower them to build their own businesses in a way that fits in with the average woman's busy lifestyle. She runs a popular online coaching group, The Hive, where she shares her advice.

"Being raised by a single mom, I learned early on how entrepreneurship can provide a better life," says Anthony L. on The Networking Revolution's website. "Read this book and see how you can change your life and the lives of those you love through home business ownership."

Anyone who wants to be a home business owner is encouraged to pick up a copy of the book and attend the signing event. You can also visit Jessica's Facebook page for more information.
