

# The Little Bamboo Launches New Bamboo Placemats With Coasters

*November 21, 2016*

November 21, 2016 -
Sanford, Florida based consumer product company, The Little Bamboo, recently announced a change to their product lineup on the Amazon marketplace. The company previously offered a set of bamboo placemats. They explained that due to customer requests, their bamboo placemats now come with coasters.

"We decided to begin offering our bamboo placemats set of 6 with coasters," says Sharon Allen with The Little Bamboo, "because so many people contacted us and stated that they would love to have a matching set of placemats and coasters."

The bamboo placemats are lined in black and designed to be easy to clean. Allen states that they are made from natural bamboo, and easy to roll up and store flat.

"We've designed them to be very beneficial as well as functional," Allen says. "The fact that they now come with matching coasters is just icing on the cake. We hope that everyone who has enjoyed our placemats in the past will consider a new set with matching coasters."

Allen states that the bamboo placemats for table make a good gift for weddings or the upcoming holidays because the natural bamboo with a black border matches virtually any home decorating. She says that they are also eco-friendly, which makes them the perfect gift idea for those hard to buy for people.

The coasters that now come with the bamboo placemats are also made of bamboo and are square in shape, matching the placemats in shape and in color and design. The coasters can also be rolled up and stored away.

The Little Bamboo offers a number of consumer products through the Amazon marketplace. Their newest addition to their product line, the matching coasters, join a long list of other home decorating and design products, all of which can be seen on the company's official Amazon seller's page.

Those interested can visit the page or see the placemat and coaster set as well as a detailed description and reviews from past customers on the Amazon marketplace. The company offers additional placemat sets as well, along with a variety of other home goods that can all be accessed through Amazon.
