

Total Paintball Gear Unveils GOG eXTCy Combo Packages On Its Online Store

June 23, 2015

June 23, 2015 - PRESSADVANTAGE -

Total Paintball Gear is excited to announce the unveiling of GOG eXTCy Combo Packages on its online store. The packages are intended for paintball players who want not only a high-end paintball marker but its related accessories as well. They provide such players an opportunity to acquire a GOG eXTCy, a loader and HPA tank in a single purchase.

The loader and HPA tank in the combo packages are specifically designed to maximize the performance of a GOG eXTCy. The loader in question is a Virtue Spire Electronic Paintball Loader. This has a holding capacity of over 200 paint balls. It also has a spring loaded anti-jam system which totally eliminates jamming; a tool-less disassembly and a quick change speed feed system.

The tank is a 68ci 4500 psi HPA Tank. This is safe, lightweight, easy-to-use and has the capacity to enable up to 1000 shots in a single filling. The combination of the Virtue Spire and the HPA tank enable the GOG eXTCy to perform at its optimum levels. This makes the combo packages perfect for anyone who wants a high-performing marker.

According to sources at Total Paintball Gear, the GOG eXTCy Paintball Guns in the combo packages are available in a range of delightful color options. The colors include black, razor blue, tactical olive, titanium silver, freak green, racer red and rally white. These color options provide shoppers with an opportunity to acquire a marker which best suits their personal style.

However, the GOG eXTCy offers much more than just style. This marker is renowned for its firepower, durability, robustness and light weight. One of its distinctive features is the inbuilt Blackheart Board. This provides the marker with up to 5 programmable firing modes. This makes the eXTCy not only powerful, but also adaptable to different gaming scenarios.

The eXTCy is also renowned for its extremely low recoil. This makes the marker steady and more likely to hit a target. When combined with the eXTCy's custom barrel, it makes the marker more accurate. The eXTCy

also has Blow Out Back (BOB) system is designed to make the marker easy to maintain.

All these qualities combine to make the GOG eXTCy a perfect marker for both speedball and woodsball/scenario. The loader and HPA tank which are part of the combo only maximize the marker's great qualities. Therefore, the combo packages present a unique opportunity for anyone who is looking for a high performing marker. Total Paintball Gear is currently offering free shipping on all GOG eXTCy combo packages purchased on its online store.

Whoever desires the GOG eXTCy Combo Packages should place their order at <http://www.totalpaintballgear.com/gog-paintball-guns/>.
