

## **Lawn Sprinklers Now Offered At Bulk Volume Discount**

*November 18, 2016*

November 18, 2016 - PRESSADVANTAGE -

Home and garden company Oasis Ahead has performed a study into the buying habits of customers and the results of this study were that many customers purchase multiple lawn sprinklers, rather than a single one. As a result, the company has started to offer volume discounts for people who purchase multiple units.

Martin Holst, Oasis Ahead's owner and founder, says: "One of our sales team members noticed a few orders of multiple sprinklers purchased by the same individual. This prompted us to research whether other people also purchase multiple items, and we found it was actually quite common. This has prompted us to offer a volume discount for people who purchase more than one sprinkler in the same transaction."

Under the new discount, those who purchase two items will receive a 5% discount by entering coupon code OASIS05P. Three units receive a 10% discount with coupon code OASIS15P. Four units receive a 15% discount by entering code OASIS10P. Finally, five units or more receive a 20% discount by entering coupon code OASIS20P. These discounts apply for those who make a purchase on Amazon.

The Oasis Ahead sprinklers have been very popular for some time now. They stand out because they have a wide coverage area of between 4,000 and 5,000 square feet per sprinkler. They also support the installation of multiple sprinklers, thus offering even greater coverage. It may be because of this that so many people

have purchased multiple units. The sprinkler also comes with a water shut-off valve, enabling people to have more control over their device.

"We have developed our sprinkler to be user friendly and environmentally friendly as well," adds Martin Holst. "In fact, it even has an ergonomic design so that anybody can use it. Our goal was to make gardening as easy as possible for people, which is why we have enabled the connection of multiple sprinklers to one system. With the current bulk buy discount, it has become even more attractive for people to do so."

Those interested in the sprinkler system are encouraged to visit Oasis Ahead's website.
