

New Temecula Food Prepping Company Ready for 2017

December 30, 2016

December 30, 2016 - PRESSADVANTAGE -

SoCalFRESH Kitchen is proud to have recently opened its doors in Temecula, CA. The company creates freshly cooked meals, delivered straight to the door of their customers in the San Diego area. They cover both weekly meal plans and individual meals for those who wish to find out what the company is about. All of the foods served are natural and organic.

A representative from SoCalFRESH Kitchen says: "Whether you're too busy to cook, trying to lose weight, or just looking for a healthy regimen to improve your health, give us a try. We are the most delicious meal prep service in Temecula Ca, hands down (at least our head chef thinks so). Let us prove that healthy food can taste good, and make you feel amazing. Enroll in one of our weekly meal plans."

With an increasing number of people concerned about healthy eating, losing weight, and going organic, demand for companies like SoCalFRESH Kitchen is on the rise. This is particularly true due to the fact that many people also lead very busy lifestyles, which means that they are unable to cook healthy, nutritious, and organic meals by themselves. Despite the fact that there is such a demand for these types of companies, SoCalFRESH Kitchen has found a niche market, being one of the first of its kind in Temecula and the San Diego area.

Because of this, they have already received numerous positive reviews. "Best choice I've made in my diet, the food is great, never have I had a bad tasting meal," says Bryan S. on the SoCalFRESH Facebook page. "The service is beyond great, Cal has catered to my every need for delivery or for when I've had to pick up my food... This is a first class company with first class food. They were highly recommended by a good friend of mine, and I highly recommend them myself... Thanks again Cal for the great food and great service."

As part of their social media campaign and to introduce more people to the food they could receive, the SoCalFRESH Instagram page has also been launched. People are encouraged to share their own photographs of their meals through this as well.
