

Alexandria Firm Announces November Promotions

November 03, 2016

November 03, 2016 - PRESSADVANTAGE -

NOVA Exteriors offers installation of doors and siding, as well as roofing replacements. The products and services are part of the special promotional prices throughout the month of November.

Alexandria VA: NOVA Exteriors is pleased to announce the descriptions of their month-long November promotions. For homeowners or business owners in need of a new door, new siding or top quality windows, NOVA professionals have solutions. During the month of November, a saving of \$150 is offered on any of the doors available. Siding prices are also reduced so that a savings of \$1200 is available on projects of 1500 square feet minimum. Roofing prices are dramatically reduced as well.

The local Alexandria Virginia door replacement specialists have made their focus on providing superior doors with quality installation services. They are ranked at the top of the competition throughout the DC Metropolitan area. The selection of a new exterior door requires aesthetic appeal as well as green energy. Doors should be properly insulated against cold DC winters, in order to prevent the cold air from creeping in and negatively impacting the home heating levels.

According to a spokesperson for the firm, "We offer a selection of doors that are all Energy Star compliant, helping both the curb appeal and the electricity bill. Our skilled and experienced technicians will help you to understand the door measurements, then will remove the old door in order to prepare for the new purchase."

In 2011, NOVA Exteriors was invited to become a member of the Provia Platinum Club. This award is presented to only those few companies nationwide that are noted for excellent craftsmanship and service. NOVA is one of only 38 companies to hold this highest honor. ProVia has been an ENERGY STAR® Partner with the Environmental Protection Agency and the U.S. Department of Energy since 2002.

NOVA also offers energy efficiency in its Verde window line. The Verde window has insulation comparable to a freezer door, as well as SolarPlus® coating. Another helpful feature in the Verde line is its self-cleaning capability.
