

# San Diego Meal Prep Company Offers Services For People With a Busy Lifestyle

*November 30, 2016*

November 30, 2016 - PRESSADVANTAGE -

Recently launched Temecula, CA meal delivery company SoCalFRESH Kitchen aims to improve the lives of many people, including those with a busy lifestyle. Due to the busy lifestyles most people now lead, they no longer have the time or energy to properly prepare their meals, choosing convenient but unhealthy alternatives instead. This has contributed to a great extent to the weight and health issues seen the world over. SoCal Fresh is proud to announce that they have released new information on the importance of food prepping and how to do it.

"Our lives are becoming increasingly busy, which means that there is little time left to do the many other things that matter, including looking after ourselves," says a representative from SoCalFRESH Kitchen. "As a company, we aim to improve people's overall health and well being, ensuring that they can eat healthy, nutritionally balanced, organic meals as often as they want. In doing so, we aim to be a positive influence to all of the world."

SoCalFRESH Kitchen is keen to show people how important it is to properly prep a meal, and what the impact of doing so can be on someone's overall health. Furthermore, proper prepping can make life much easier, enabling people to find a better balance between their work and their personal life. Prepping food also makes it easier to properly control portions, thereby stopping people from overeating, something that is common in those who do not properly prep. Those who have used the service have been full of praise, as can be seen on the SoCalFRESH Facebook page. "Lots of flavor & filling," says Kimberly W. "Very fresh tasting too, even after 3 days in fridge."

SoCal offers an easy to use meal prepping service which is also organic, non-GMO, grass fed and all natural and can benefit anybody. They currently offer this service to Escondido and San Diego. They may, if there is significant demand, expand this geographical area in the near future, although no full agreement has been made about this.

People are also encouraged to visit the SoCalFRESH Instagram page to find images of previously cooked

and delivered meals, as well as for further information on proper food prepping.
