

NBS-Calibrations Offers Full Line Of Research Laboratory And Manufacturing Scales

November 12, 2016

November 12, 2016 - PRESSADVANTAGE -

Laboratory balance experts NBS-Calibrations, occupying a warehouse space in JGM Properties' Corporate One mixed-use property, offers expansive line of laboratory-grade weighing equipment.

NBS-Calibrations has provided weighing equipment, repairs and calibration services to the scientific, educational and industrial community since 1971. With 45 years of experience, and knowledge of laboratory work and production, NBS-Calibrations understands their customers needs and can direct them to products that best fulfill their application.

"Laboratory balances are one of the most common pieces of equipment in most laboratories. Yet they are often forgotten or neglected until someone needs it and it isn't working. That is why the team at NBS-Calibrations work so hard to insure customers balances are working properly and in tolerance when they need them. Whether a customer is interested in scheduled service or repairs as needed give NBS a call," says Andrew Rodriguez of NBS-Calibrations.

NBS-Calibrations offers on-site lab balance service in the upper Midwest. This includes Minnesota, North Dakota, South Dakota, Iowa, Wisconsin, Northern Illinois and Upper Peninsula Michigan.

"NBS has the ability to service all laboratory balances regardless of manufacturer. Their many years of experience and knowledge of laboratory practices and procedures makes NBS a solid choice for this important calibration service," says Rodriguez.

NBS-Calibrations sells and services all brands of laboratory balances, including micro balances, analytical balances, precision balances, moisture analyzers and industrial balances. They also sell and service many different types and styles of industrial scales, including floor scales, bench scales, counting scales, indicators, scales systems and general purpose scales

"The NBS website offers a wide selection of balances from manufacturers the industry knows and trusts,"

says Rodriguez.

NBS-Calibrations relationships with their suppliers combined with their years of experience allows them to offer their customers competitive prices. They have a full-time crew available to assist with all manner of questions. There are always technical representative available for questions about which balance best meets the customers needs.

NBS can come to a customer's location and perform the following tests and services: span calibration cal reports, linearity, eccentricity, hysteresis, and balance cleaning. All weights used are traceable to NIST and on-line calibration reports are included.

?If businesses have service related question regarding a balance, NBS would be happy to assist. Need some weights calibrated and certified? NBS can do that also,? says Rodriguez.

A number of their calibration services are A2LA Accredited, if an organization requires such documentation, NBS-Calibrations can help.
