Top Dog Nutraceuticals, a top vendor on the mega shopping portal, Amazon.com has recently launched a convenient two pack option of their popular hip and joint supplements for dogs. This new purchase option has been created based on customer requests.

"These arthritis supplements for dogs are something that the dogs will be taking for an extended period of time, so it only makes sense to offer different buying options. We currently have the single bottle of 120 chewable tablets and now we are offering two bottles of the tablets for a total of 240 tablets," said Troy Larsen, a representative from Top Dog Nutraceuticals.

The dog arthritis supplements have been getting rave reviews on Amazon and currently has a 4.3 out of 5.0 rating.

"We're on our second bottle, & plan to continue purchasing. When we initially started, within about 2

weeks Fletcher showed relief from stiffness & limited movement. He thinks it's a treat-- easily chewed. He started his signature, mid-air, 1/2 twist jump again! He can go on long runs without pain, has more energy etc.. And at 10-11, that's pretty impressive. I like the ingredients in this supplement, especially the turmeric. Thank You! :)? said, D.Marie an Amazon verified and satisfied customer.

?Top Dog Premium Hip & Joint Complex is different from almost all its competitors because it contains organic turmeric, a natural herb which, among many other things, acts as a powerful anti-inflammatory agent, providing additional pain relief for suffering dogs. We also improved the flavor of the chewable tablets. The flavor is chicken and liver, a flavor that is very popular for dogs.? said Troy Larsen, a representative from Top Dog Nutraceuticals.

Top Dog?s dog arthritis supplement is manufactured in an FDA approved and GMP certified USA plant, ensuring product safety and integrity. It is currently available on Amazon and comes with a full money back guarantee.
