

New Bunion Cushions Prove To Be A Massive Hit

DenadaDance is a business in Minden, NV, that has made it its mission to help people who suffer from various foot afflictions like bunions. They have recently released the new DenadaDance bunion cushions set, which is already proving to be a huge success. The company has noted that having bunions is a painful condition that is entirely avoidable. Bunions are caused by the big toe overlapping the second toe, something that happens when people wear pointy-toed shoes, for instance. This is one of the reasons why bunions tend to become more commonplace in winter, when people start wearing closed shoes again.

Maria Smith, manager at DenadaDance, says: "I wear pointy shoes myself. I love them. Unfortunately, this also means I get bunions and corns. My personal issues have been an inspiration to create the DenadaDance line of products and I am very happy to see that so many people are benefiting from it."

In fact, since having been released, the bunion cushions set has already received 28 reviews, most of which are positive. As a result, the product is now a 4.5 star rated item on Amazon, a rare score for new products. Diane Murphy at Amazon says, "I can wear the toe separators for 24 hours with no problem, I dont know its there." Lori C says, "The material is very soft, both toe spacers and bunion protectors are comfortable to wear." Tec67 says, "Can wear toe spacers all night without any discomfort whatsoever."

Interestingly, those who have left less than favorable remarks have stated that the cushions were too bulky. They have, in actual fact, been created so that they can be trimmed to size, something that most of the negative reviewers were able to figure out later. Maria Smith adds: "We believe in the quality of our bunion cushions, having manufactured them with highly durable and flexible materials. If anyone does have any issues, we welcome their feedback and will do what we can to resolve it."

Those who are interested in knowing more about the bunion cushions can visit the company website or the Amazon seller page.
