

DenadaDance Hallux Valgus Pain Relief Product Now Available On Amazon In Germany

November 15, 2016

November 15, 2016 - PRESSADVANTAGE -

Minden, Nevada, based company DenadaDance has announced that its popular hallux valgus pain relief product is now available on the Amazon marketplace in Germany. The company recently released the product on the United States Amazon marketplace and reports that it has been very well received.

"We were astounded at the positive response that the product received when it was released in the United States," says Elena Vera, a spokesperson for the company. "We're pleased to now report that we are offering the DenadaDenada hallux valgus product on more global markets as well."

The company recently reported that the toe spacers, which are designed to provide relief from hallux valgus or bunions, as well as many other orthopedic conditions, hit a milestone on the Amazon marketplace in the United States with more than 100 positive reviews. Since that time, they have released the product in Germany and plan to offer it in various other global markets as well.

"We designed our toe spaces for the ultimate in hallux valgus relief," says Elena Vera. "They are made from quality materials and designed to last for as long as you need them."

Amazon customers in the United States have been enjoying the product for some time, which has been shown to correct toes and relieve pain caused by hallux valgus as well as overlapping toes and toe drifts. The company states that they are specifically designed to provide relief from pain associated with bunions and to help correct misalignment in the big toe.

The spacers are only available through DenadaDance, and includes a set of gel toe spacers to separate the toes. The gel helps to make the spacers more comfortable to wear, and they can be worn during the night to correct toe issues while the wearer sleeps.

The company offers a wide selection of consumer products that are designed to help correct orthopedic issues in the feet and toes, as well as provide pain relief from these issues. Those interested in learning more can visit DenadaDance on their official website or on the Amazon marketplace in the United States and now in Germany.
