It is also easy to install as it includes a step-by-step under cabinet installation instructions, along with all the necessary screws, anchors and extra screws if needed.

"I love those wine rack! I recently purchased an entirely new set of wine glasses and really didn't have a lot of space left in my wine cabinet. I resorted to placing the glasses on my counter top for the time being, and then I came across this wine rack. I hesitated to give it a try, fearing it would be too large to fit under my cabinet but it's perfect," says Poetic Origin in his Amazon review of the Under Cabinet Wine Glass Rack Holder.

The sale price for the 1 set is at \$11.97 from its previous price of \$14.97, while the 2 set is priced at \$19.97 from its previous price of \$24.97. The company says it's a great way to save in shopping for Christmas gifts, all available for purchase at Amazon.com.
