

Knoxville Firm Launches Facebook Followers Promotion Service

November 07, 2016

November 07, 2016 - PRESSADVANTAGE -

BuyRealSocialMarketing offers an opportunity to purchase Facebook followers for Facebook personal pages. The followers are real people, not the result of bots.

Knoxville TN: BuyRealSocialMarketing and Dennis Robinson are pleased to announce that they are launching a new service to benefit personal Facebook account holders. The company offers the opportunity to buy Facebook followers using real names and people from around the world. No bots are included in the follower listings. The response is fast and easy to access. The service is geared toward personal account holders who have reason to increase their following.

In order to buy FB followers, there is no password or administrative access needed. The service requires that the customer provides the Facebook Personal Page URL. The company supplies only 100 percent real Facebook followers and they are drawn from multiple countries throughout the world. The service is intended only for Personal Pages with the Followers option turned on and public.

According to a spokesperson for the service, "There are several reasons why you might want to purchase Facebook followers. The follower's feature in FB previously was called Facebook Subscribers. The new feature allows people an amazing chance to increase their fan base on their personal pages. As a result, there are more connections and more brand awareness about the customer."

For public figures in the community, the addition of real followers in the FB profile can cause a "herd effect". The many followers showing up in the account results in even more people choosing to follow the customer. The personal profile will gain authority and demand respect.

The social media platform rates the profile by the number of followers in determining who should be displayed in the Follower Suggest feed. Obtaining a large following through organic methods can require a tremendous amount of effort. It is easier to let the professionals handle the acquisition of the followers for clients. By developing a large follower base, the customer is able to intensify advertising and brand recognition efforts.
